Wash hands regularly • Cover coughs and sneezes •  
Keep unwashed hands away from nose and mouth

### *What Can I Do To Prepare?*

*Pandemic flu is not the same as the seasonal flu* that we usually see between October and April in Wisconsin. Seasonal flu is caused by a virus that is fairly common and usually does not change much from year to year. Pandemic flu is caused by a virus that is new, could happen at any time, and could affect people in Wisconsin and around the world.
